

WNGN Broadband Regional Leadership Summit

Jeff Sural

Director

Broadband Infrastructure Office

January 27, 2020

Vision

Every North Carolinian
should be able to
access affordable high-
speed internet
anywhere, at any time.

State Broadband Plan Goals

Increase the percentage of households with access to broadband to 100 percent by June 2021

Increase the percentage of households with access to fiber optic cable to 50 percent by June 2021

Increase household adoption rates to over 60 percent by June 2021

Affordable access to the internet outside of school for 100 percent of K-12 students by June 2021

Ensure high-speed internet access is available at all libraries by 2020

A state-wide model for the development and deployment of local, community-based digital literacy programs

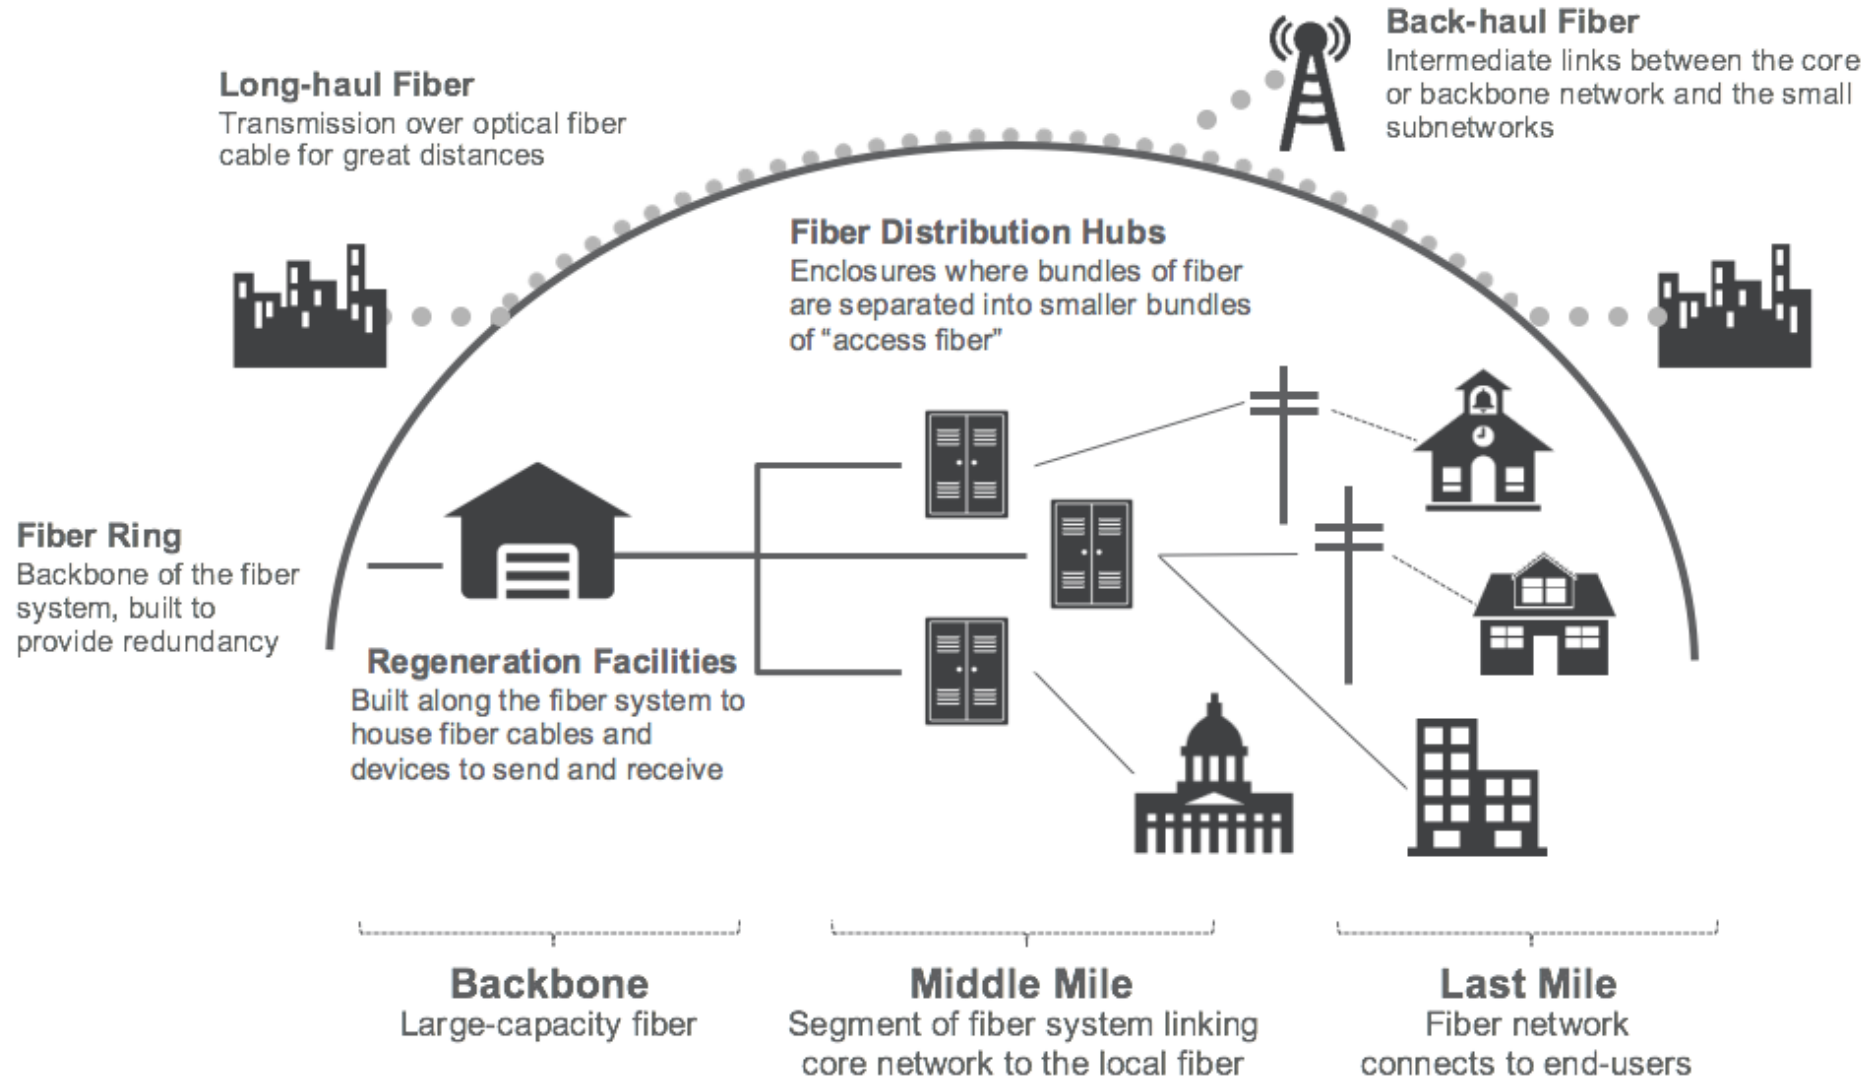

What is Broadband?

Broadband 101 – Typical Broadband Usage

	Light Use (Basic functions only: email, browsing, basic video, VoIP)	Moderate Use (Basic functions plus <i>one</i> high-demand application: streaming HD video, teleconferencing, online gaming)	High Use (Basic functions plus <i>more than one</i> high-demand application running at the same time)
1 user on 1 device	3-8 Mbps	3-8 Mbps	12-25 Mbps
2 users or devices	3-8 Mbps	12-25 Mbps	12-25+ Mbps
3 users or devices	12-25 Mbps	12-25 Mbps	25+ Mbps
4 users or devices	12- 25 Mbps	12-25 Mbps	25+ Mbps

Wireless Infrastructure: A Heterogeneous Network

Why can't I get a provider to deploy to my home?

Common Barriers to Broadband Deployment

Capital
Expenditures
(CAPX)

Population
Density

Broadband Availability Challenges

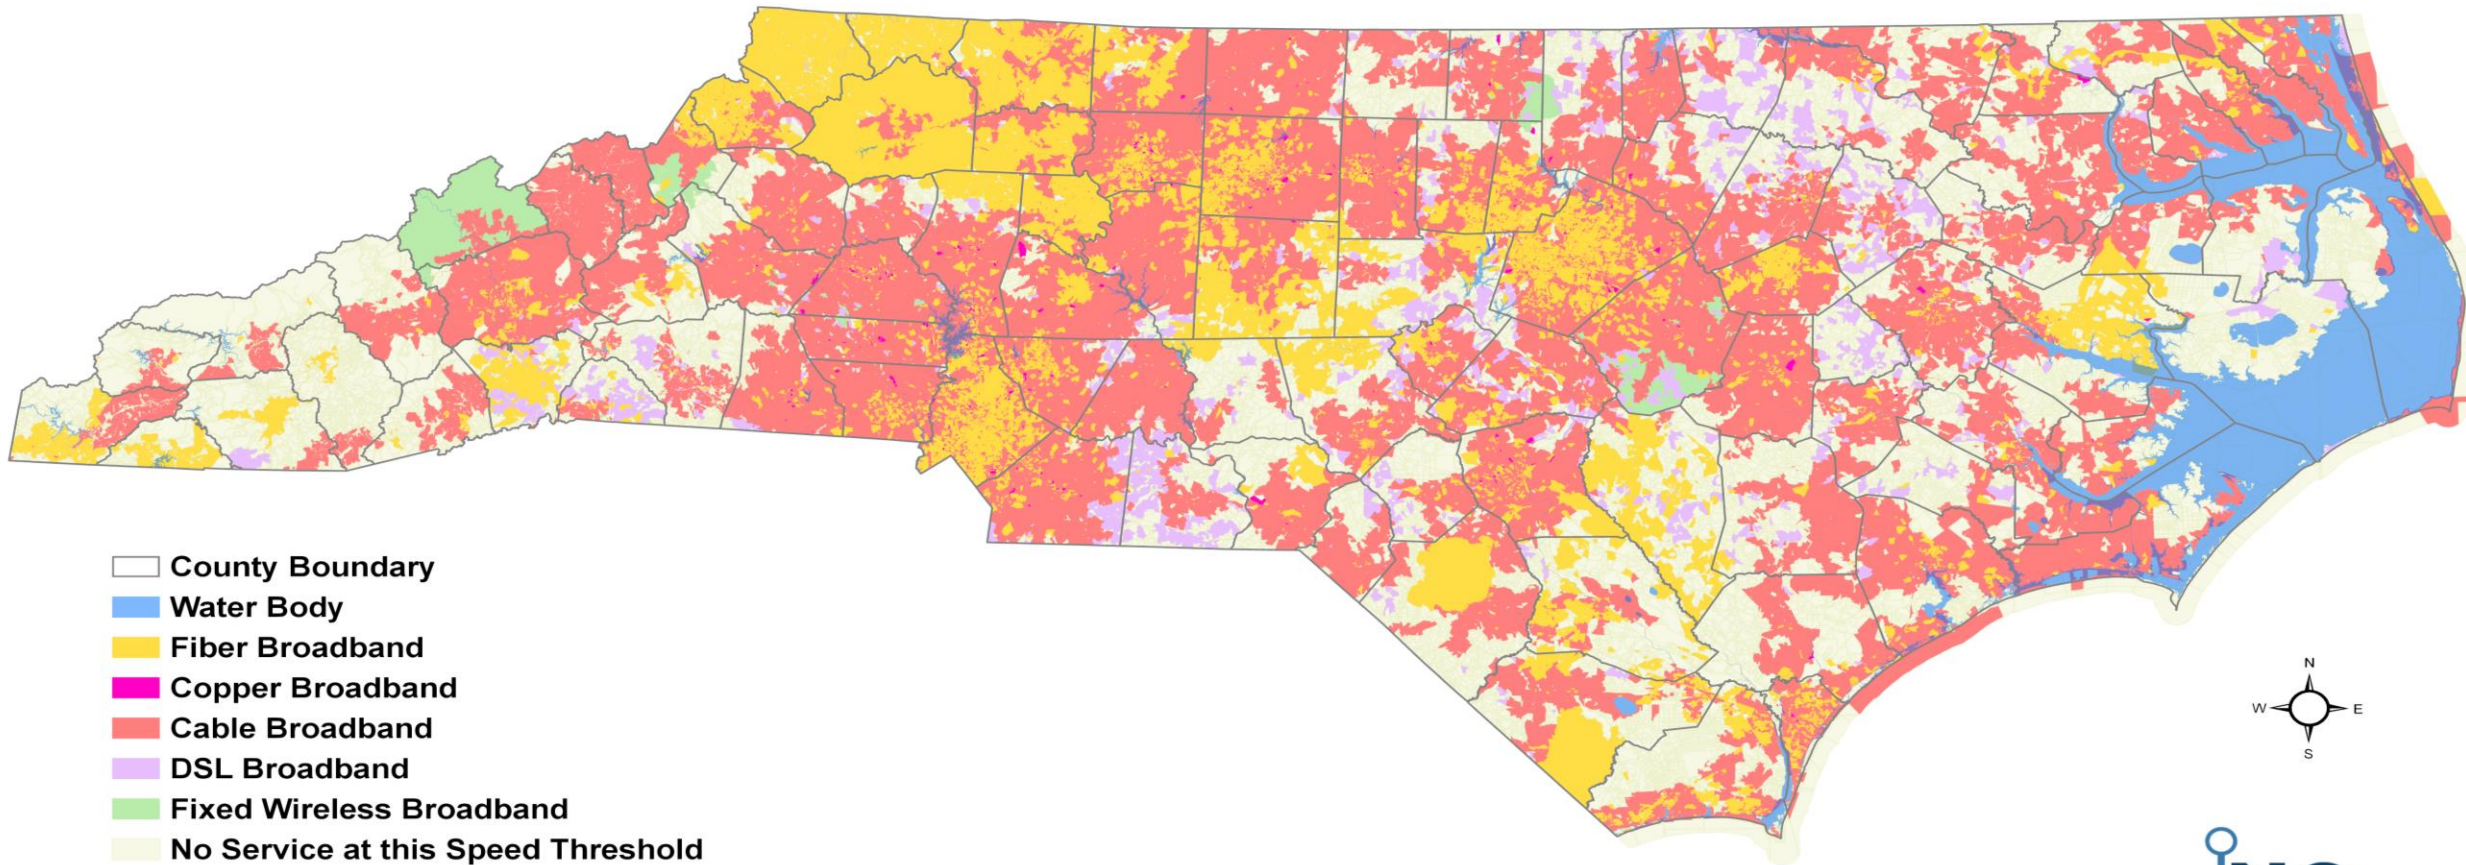

North Carolina Broadband Service Inventory

Advertised Speeds of at Least 25 Mbps Download and 3 Mbps Upload

Data derived from U.S. Federal Communications Commission Form 477 Data Release Dec. 2017.

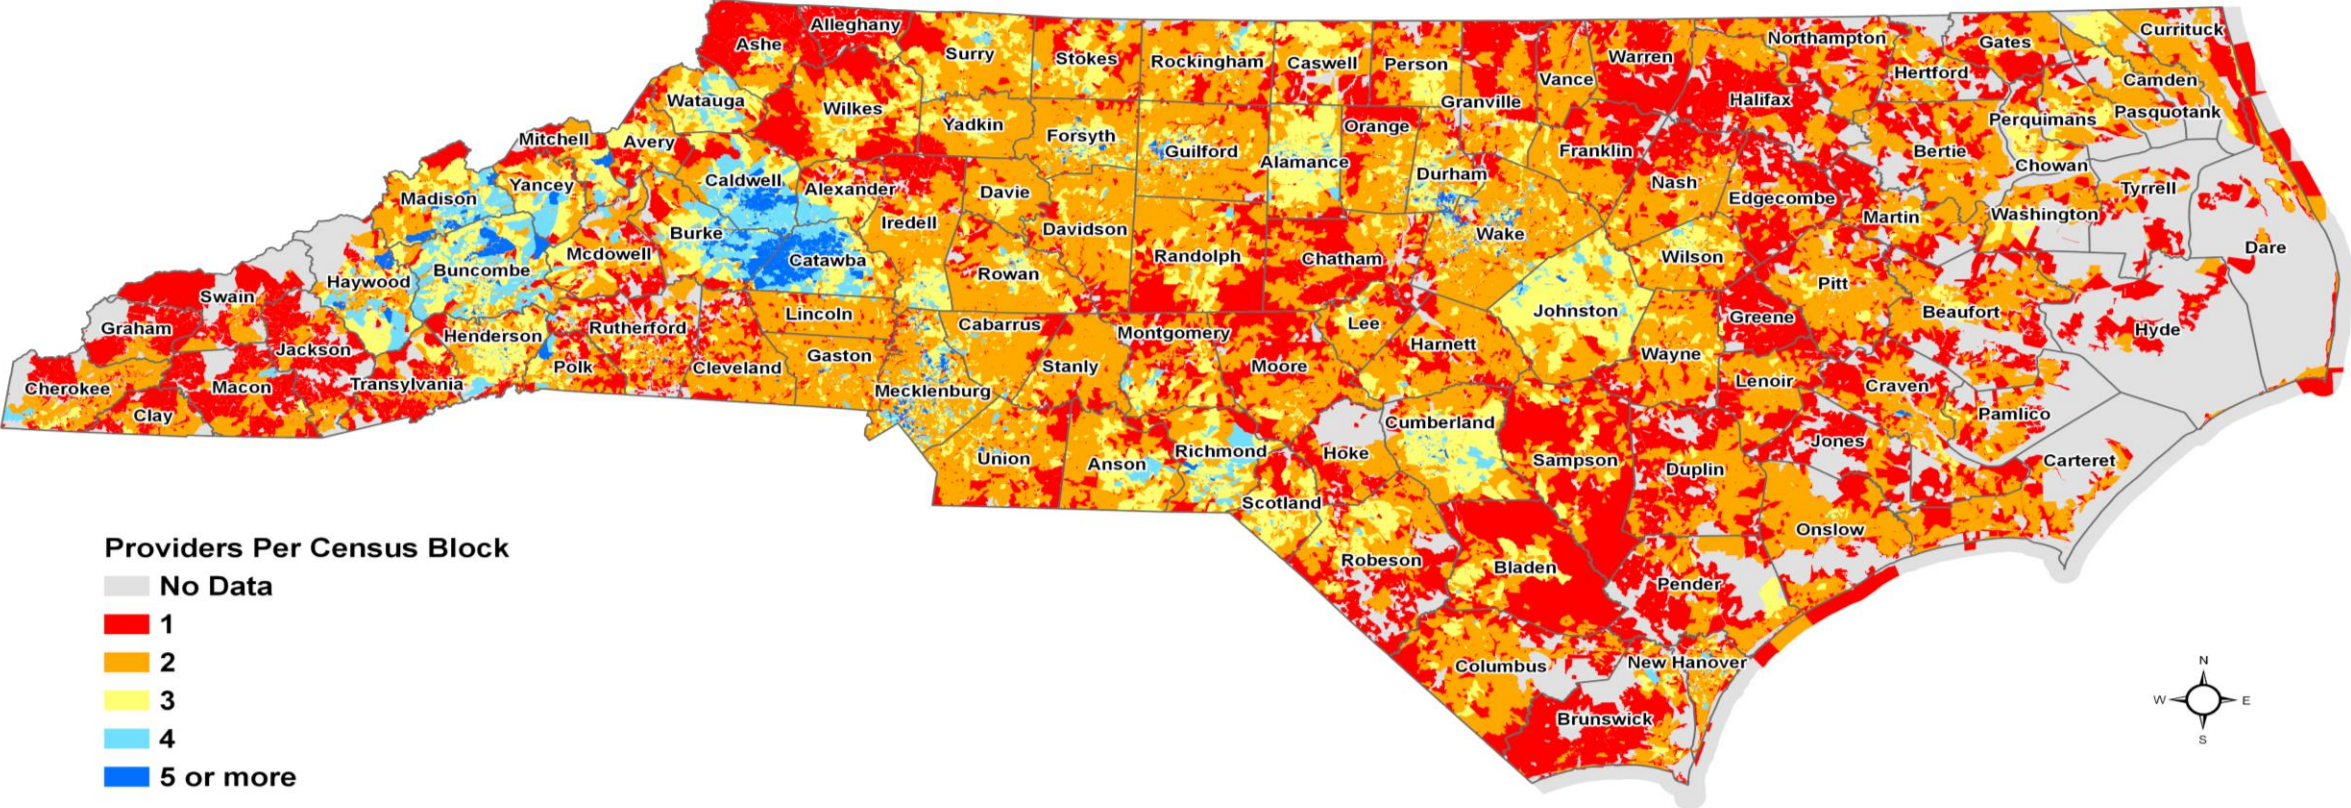

Note: A provider that reports deployment of a particular technology and bandwidth in a census block may not necessarily offer that service everywhere in the block.

In areas where multiple service options are available this map shows the coverage layers in the order presented above.

Distribution of Residential Broadband Providers in North Carolina

Number of Providers	% Households Served	% Population Served	% Census Blocks Served
0	0.9%	0.8%	10.6%
1	9.5%	9%	26.4%
2	58.4%	58.7%	45.6%
3	23.2%	23.4%	13.7%
4	5.5%	5.6%	2.7%
5 or more	2.6%	2.5%	1.1%

Data derived from U.S. Federal Communications Commission Form 477 Data Release Dec. 2017.
Population and Household figures derived from 2010 U.S. Census Bureau data.
Note: Map includes only wireline and fixed wireless residential providers.

So Where Are We Now and
What Are Our Next Steps?

BIO Community Broadband Playbook

Defined Steps for Broadband Planning:

Broadband Planning Committee
(coordination, clear goals)

Assets & Needs
(demand aggregation, market analysis, vertical & other assets, importance of granular data)

Connecting with Provider Partners
(offer strategies, work with BIO)

Policy & Broadband
(local ordinances, taking advantage of existing State or county infrastructure)

Building the Network
(RFPs/RFIs, funding sources)

Building the
Network

Broadband Planning, First Steps....

Determine Where You Are

Where Is Your Community Now with Information Gathering?

Municipal Assets and Fiber – What do you have, what are you considering?

What Are Your Other County or Regional Assets?

Who are Your Potential Partners, especially Broadband Provider Partners?

Do you have other Projects or Initiatives that can be leveraged?

As You Develop Plans, Keep in Mind...

No One Solution, rather...

a combination of solutions, a combination of providers,
a combination of technologies...even in one county or municipality

Leverage Other Projects, for example...

smart/connected city applications, public safety, economic development,
homework gap

Your Role As A Community Leader

Activities/Models – County Planning

Example:
Planning effort led by
Rowan County
utilizing the
Broadband
Infrastructure Office's
Community Playbook

County PPPs

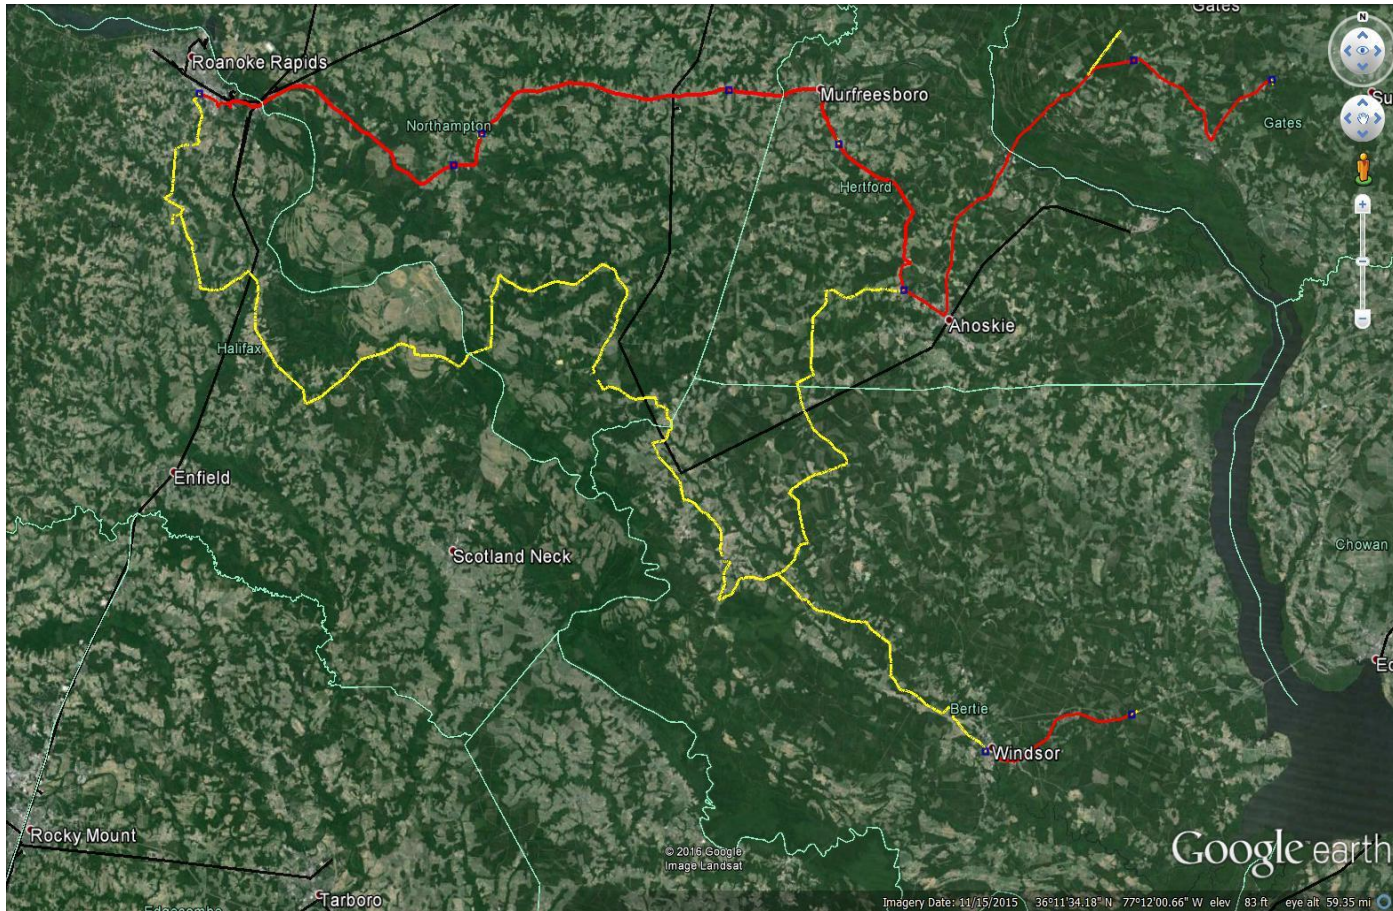

Nash County with CloudWyze (Wireless ISP)

- \$300,000 Pilot Program with \$2m contract overall
- BIO assisted with RFP process and technical assistance

Electric Cooperatives & Broadband

Roanoke Electric Cooperative / Roanoke Connect

- Smart Grid Infrastructure Approach (five NE NC counties)
- BIO interested in new provider entrants into NC, discussions with REC on telehealth and other projects

State of North Carolina

ROY COOPER

GOVERNOR

March 14, 2019

EXECUTIVE ORDER NO. 91

**ESTABLISHING THE TASK FORCE ON CONNECTING NORTH CAROLINA,
PROMOTING EXPANSION OF ACCESS TO HIGH-SPEED INTERNET AND
REMOVING BARRIERS TO BROADBAND INFRASTRUCTURE INSTALLATION**

Executive Order 91

- Issued in March 2019 by Governor Cooper
- Establishes a Task Force on connecting North Carolina, promoting expansion of access to high-speed Internet and removing barriers to broadband infrastructure installation
- Task Force of Cabinet agencies
- Update 2016 State Broadband Plan and prioritize recommendations
- Statewide Dig Once policy

GREAT
Grant
Purpose
Statement

To facilitate economic development through the deployment of broadband to unserved areas of the State.

GREAT Grant Program Statistics

2018-2019 Data As Of 9/1/19

Data Used

For instructions on the functionality of this mapping tool, [CLICK HERE](#)

Provider service areas and speeds are based on the FCC Fixed Broadband Deployment Data from form 477 (June 2017 release). A provider that reports deployment of a particular technology and bandwidth in a census block

Potential Broadband Funding Opportunities

USDA-Rural Utilities Service

- Community Connect
- Distance Learning and Telemedicine Grants
- Rural Broadband Access Loan and Loan Guarantee
- Telecommunications Infrastructure Loans and Guarantees
- Shannon Legree 803-354-3168

USDA ReConnect Loan and Grant Program

- Spring 2020
- Grant only
- Grant/Loan Combo
- Loan only
- Shannon Legree 803-354-3168

USDA Invests \$23.7 Million in Rural Broadband for North Carolina Families

CLINTON, N.C., Nov. 6, 2019 – Today, U.S. Department of Agriculture (USDA) Deputy Under Secretary for Rural Development Donald “DJ” LaVoy announced USDA has invested \$23.7 million in high-speed broadband infrastructure that will create or improve rural e-Connectivity for nearly 8,750 rural households in North Carolina. This is one of many funding announcements in the first round of [USDA’s ReConnect Pilot Program](#) investments.

Press Release

Release No. 0174.19

Weldon Freeman (202) 690-1388

Wayne Maloney (202) 720-6101

Potential Broadband Funding Opportunities

ARC

- Pre-Application open 3/1/20
- Due 4/13/20
- Match required
- \$300K construction
- \$100K non-construction
- Eligible Applicants: Local governments and non-profits
- Olivia A. Collier 919-218-3623

ARC POWER

- RFP will be available this fall
- Match required
- Funding limits will be detailed in the RFP
- Eligible Applicants: Local governments and non-profits
- Olivia A. Collier 919-218-3623

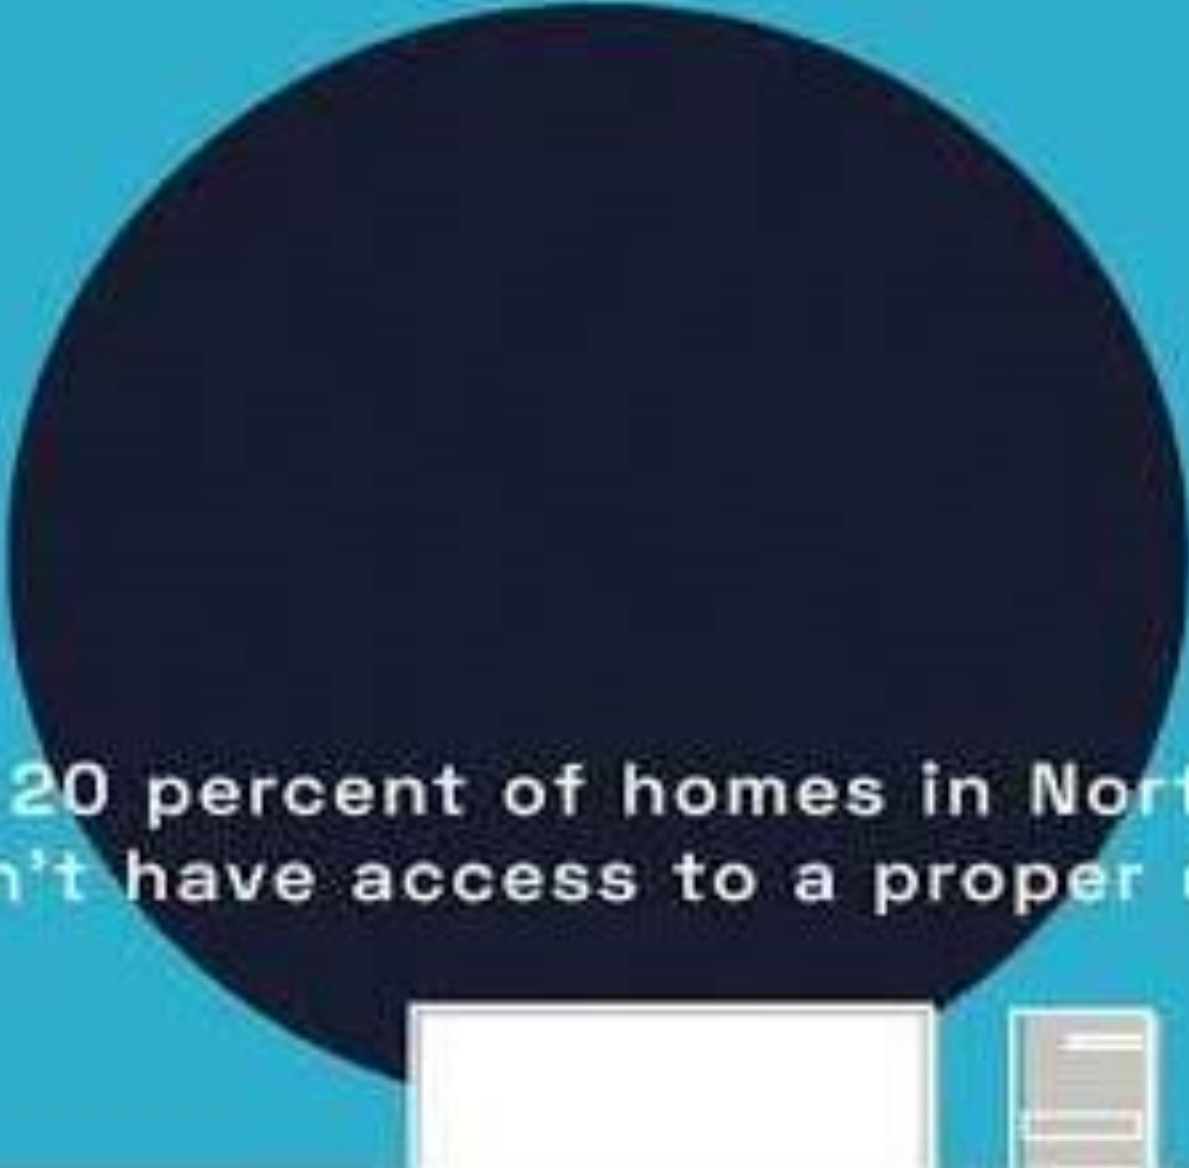

Potential Broadband Funding Opportunities

FCC Rural Digital Opportunity Fund

- FCC Vote January 30
- Proposal for \$20.4 Billion
- Distribution: Reverse Auction
- Priority funding areas: CAF II (169k HH) and <25/3Mbps
- <https://www.fcc.gov/document/fcc-proposes-204-billion-rural-digital-opportunity-fund-0>

Broadband Adoption

The Percentage Of The
Population That Subscribes To A
Broadband Service

Nearly 20 percent of homes in North Carolina
don't have access to a proper device.
